at Kansas City Meeting.

The Columbia Commercial Club, through Bertram Harry, secretary of the Missouri Union, will extend an invitation to the Missouri State Teachers' Association, which meets in Kansas City from Thursday to Saturday of this week, to hold its annual convention in Columbia next year. About 40 delegates from Columbia are expected to be there.

Adaptation of school work to meet the new social conditions growing out of the war and increased emphasis on the need of improving rural schools promise to be the topics of chief interest at the convention.

At the first night session in Convention Hall the teachers will hear from the committee conducting a comprehensive survey of the rural schools. The speaker will be A. G. Capps of Columbia, chairman of the committee, who is expected to outline the progress already made and some of the objects of the survey, which will not be completed before next summer.

Superintendent Lamkin to Speak.

Along somewhat similar lines will be the address by Uel W. Lamkin, state superintendent of schools, on "The Work of Tomorrow for the Schools of Missouri." He is expected to go into the new school problems growing out of the war.

Friday morning the teachers will be divided into three big sections. Elementary teachers will meet at Convention Hall to hear John J. Mahoney of Lowell, Mass., on "The Teaching of English in the Grades," and J. L. ALL SUPPLIED WITH COAL

Failure to Receive Regular Shipments
Is Only Difficulty.

The local fuel situation is good now, according to Lee Walker, acting fuel administrator of the county in the absence of H. A. Collier. Nearly everyone has been supplied with coal to meet the immediate needs, and dealers are beginning to deliver coal to those who gave orders previous to the shortage.

"Failure to receive regular shipments of coal is the only difficulty to be met now," Mr. Walker said.

Mr. Walker attended a meeting of the coal dealers in Centuria last night, called by R. L. Holt. The Centuria people are supplied temporarily.

HEAVY FIRING FAILS TO BREAK PIAVE LINE

Several Battalions of Austro-
Germans Cross River
Near Zenson.

FIGHT DESPERATELY

Italian Artillery Attacks En-
emy and Destroys Then
in Mid-Stream.

By Associated Press

ITALIAN HEADQUARTERS IN ITALY, Nov. 14.—The Piave line still holds against the heavy and continuous artillery fire from the eastern bank of the river where the Austro-Germans are crossing the stream.

These efforts have not taken the proportion of a general movement, but several battalions crossed the river on pontoons near Zenson. The Italian artillery concentrated its fire on the raiding parties and either destroyed them in mid-stream or pushed them back on the river bank.

The fighting here was desperate and sanguinary. Men who have returned from the batteries along the Piave say the German fire is extremely heavy, but from middle caliber guns. Chief attention now is directed toward the eastern sector of the Trentino front, where it appears to be the hope of the enemy to divide the troops on the Asiago Plateau from those in the upper Piave valley.

The enemy is making preparations which are considered a prelude to a heavy attack in the valley of the Bassino and the plains below, thus separating the Italian army on the Trentino from the forces on the Piave.

Reports indicate the enemy is operating on four main fronts. The number of troops under the Austro-German commanders is now known. The inter-Allied conference is considering measures for the defense and protection of Venice.

fore International Policy Club.

The International Policy Club held its semi-monthly meeting last night in the Y. M. C. A. Building. Max F. Meyer led the discussion on "What Does Winning the War Mean?"

"If we can force the Germans back on the Western front to their own territory," he said, "I am confident the people will lose faith in their government and peace will soon result. There must be a military victory. We must suffer great losses in money and men before the end is attained."

Several points of the question were debated by the members after Doctor Meyer's talk.

STATE CONVICT CAMP A SUCCESS

Honor System Works on Highway
Without a Gun or Lock.

Missouri's first convict road camp, established under the new state highway laws authorizing the employment of state prisoners on the highways, is proving a success, according to A. C. McKibbin, secretary of the state highway board, and other state officials who are watching the work at Mineola, where thirty convicts are building an eight-mile stretch of hard road along the National Old Trails highway. More than five weeks have elapsed since the highway board put the men at work in the Mineola hills. The camp was established on the honor system. No guards were employed and not a gun was brought into the camp.

Detailed records of the cost of the road construction are being kept. Files in the state highway office here show it has cost less than \$200 a mile to clear all trees and remove all stumps from the new right of way through Mineola.

CONTROL OF RUSSIA EXCEPT PETROGRAD BACK TO KERENSKY

Bolsheviks Defeated and Provisional Government Rules
All But Small Part of Petro-
grad, Say Dispatches.

MOSCOW IS SEAT
OF NEW RULERS

Accounts Received Contra-
dictory—Kadavines Said to
Be Dictator in South—Premier Holds Wires.

By Associated Press

LONDON, Nov. 14.—The Finnish Telegram Bureau says the whole of Russia except a small part of Petrograd is now in the hands of the Provisional Government. Premier Kerensky is now in Petrograd and has taken virtually the entire city, the announcement of the Finnish Telegram Bureau says.

According to these advices, which were received in a cablegram filed at Stockholm at 4 o'clock yesterday afternoon, Premier Kerensky defeated the Bolsheviks at Tsarkeo-Selo, and the Cossacks are reported to have destroyed the Red Guard.

The telegraph lines are now in M. Kerensky's hands, the Telegraph Bureau reports.

The Finnish Telegram Bureau says Moscow is the headquarters of the Provisional Government and that Premier Kerensky has issued orders from Moscow which have appeared in the Petrograd papers.

The anti-Bolshevik papers of Petrograd, as well as the Helsingfors newspapers, have headlines announcing that the Bolshevik government is nearing its downfall. General Kadavines, the Cossack leader, is said to be dictator of Southern Russia.

For the last three days reports have been coming in from Scandinavian sources of the defeat of the Bolsheviks, but they have been contradicted by wireless dispatches from Petrograd. This is the first time that an account has been received of a battle at Tsarkeo-Selo, a Kerensky victory having been reported twice and a Bolshevik success once.

The Finnish Telegram Bureau advises so closely parallel dispatches received on Sunday and Monday asserting that Premier Kerensky had overthrown the Bolsheviks as to suggest that they may be a delayed version of the same reports which are contradicted by the announcement received yesterday from Petrograd that the Kerensky forces had been defeated in a battle near Tsarkeo-Selo.

LEARNS STEALING IS WRONG

Visiting Nurse Teaches Morals as Well
as Means of Healing.

It was to the office of the visiting nurse that the little boy, whose name was George, came to have his ear treated.

"I got two pennies," he said, holding them up to the nurse's eyes.

"Who gave them to you?" asked the nurse.

"No one gave them to me," he returned, his eyes sparkling.

"Where did you get them?"

"I stole them."

The visiting nurse took the boy on her knee.

"George, don't you know it's wrong to steal?"

"Don't know nothin'," he returned. The nurse tried to explain where the wrong lay, but George wriggled down from her knees and ran home to his widowed mother and to the delinquent brother who is teaching him the other side of life.
